• Description ref n°7879 •

The 159m² stone house will require renovation. It has retained its character and is spread over a ground floor and two floors.

We enter through the 14.07m² kitchen, separated by a partition from the 40.12m² living/dining room with its fireplace (which could accommodate a stove, an insert, etc.) and its staircase.

PVC double glazing

On the first floor, a 7.28m² hallway welcomes us and leads to three bedrooms of 12.44m², 12.63m², and 13.76m², and a 6.43m² bathroom. PVC double glazing

On the second floor, a 20.49m² landing, with a hatch leading to the unconverted attic, leads to two bedrooms of 13.63m² and 15.61m².

Single-glazed wood-paned windows

Electric heating throughout the house

Outside, we discover several outbuildings:

- A 11.75m² garage for one car
- A 4.96m² shed
- A barn that could be used as a garage or storage room
- A barn overlooking the street
- A barn divided into three rooms (one with access from the upper floor) of 12.32m², 12.98m², and 29.92m².

Renovation work is planned:

Reroofing the house and roof repairs for some outbuildings.

Mains drainage is partially semi-compliant
