## • Description ref n°7998 •

Renovated stone farmhouse of approximately 180 m<sup>2</sup> with outbuildings on a plot of 11,530 m<sup>2</sup>.

The house comprises:

A main attic room with an entrance opening onto a living/dining room with a Godin wood-burning stove, then an open-plan kitchen, three bedrooms of 15, 18, and 20 m<sup>2</sup> on the same level, as well as a mezzanine of approximately 18 m<sup>2</sup> (which could be used as a fourth bedroom or office), a bathroom with a shower, bathtub, and toilet, and a second separate toilet.

The outbuildings comprise:

A barn of approximately 60 m<sup>2</sup>, adjacent to the house, also used as a garage.

An annex room to be renovated, designed as a summer kitchen.

A second wooden barn on the land can be used for storage or for animals. Outside, a terrace sheltered by a covered courtyard running the length of the house provides access to a landscaped garden and a meadow with a fully fenced wooded area, two wells, and dual access to the road.

The windows are double-glazed.

The sanitation system is individual, with a functional, non-compliant septic tank.

The heating system is electric, thanks to a 2021 air-to-water heat pump.
