Architect-designed single-story house built in 2019 with a surface area of 135 m² (1,400 sq ft) plus a basement, built on a 4,287 m² (4,287 sq ft) plot.

The house comprises:

- An entrance hall with a corridor leading to
- A main room with an open kitchen and central island, a dining room, and a double living room.
- Three bedrooms, each with a French window.
- A dressing room.
- A bathroom with a bathtub, a walk-in shower, double sinks, a heated towel rail, and a toilet.
- A second separate toilet with a sink and heated towel rail.
- A laundry area.

The basement comprises:

- A main room with a cellar and a storage room.
- A workshop.
- A boiler room with a heat pump and thermodynamic tank.
- A garage with an electric door.

Outside, a carport in front of the house entrance, followed by a wooden deck surrounding the house, provides access to an ornamental garden with a well and a 10,000L water tank.

The sanitation system is individual, with a compliant septic tank.

The frames are double-glazed aluminum.
