• Description ref n°8993 •

Old, single-story house located on the edge of a hamlet and a few minutes' drive from Castillonès. In the countryside, the house is surrounded by its landscaped garden (and hedges), approximately 300 m², and enjoys a rural setting with lovely views of cultivated fields.

The house is habitable but requires renovation and upgrades to meet current standards. With a living area of approximately 112 m², the house is laid out as follows:

The entrance leads into a living room (kitchen/dining room of approximately 34 m²) with several windows and a mezzanine (access to the attic). The living room (28.3 m²) is equipped with a wood-burning stove (the only source of heating in the house), two French doors opening onto the front facade, a vestibule with a cupboard for the water heater, three bright bedrooms at the rear, a recently renovated bathroom (sink, bathtub, shower, and toilet) of approximately 6.1 m², and a separate toilet (with a hand basin).

The house has already undergone some renovations (modernized bathroom, new water heater, some double-glazed windows), but it requires further work (modernized windows and doors, additional wall insulation, installation of a heating system for greater comfort, and roof and insulation to be inspected). etc...)

Functional sanitation system, but not compliant with current standards.
